### LTC SUMMER SCHEDULE CHANGES

Lima Tech's Summer Schedules will be ready on Thursday April 28. In this year's Summer Schedule, the section number will tell you what term the course is offered. The classes will all be listed in regular order with all terms together, rather than separate listing for each term. The first character is a letter. It has been added to identify the summer term: A = 10 week term; B = First 5 week term; C = Second 5 week term; D = 8 week accelerated term; and E = Non-traditional term (e.g., a course meeting just one or two days total, etc.) L = Lab, same term as Lecture. The actual section number (1,2,3, etc.) is the second character in the section number field on the schedule. If you want a course, this will show all offerings of that course for all terms. If you are looking for only second 5 week term courses you will only have to scan the section column looking for sections starting with a C. If you have questions, please come to the Registrar's Counter in PS148.
